

# User Guide: Sizzix Big Shot Plus

## What is it?

This portable roller machine cuts and embosses many different materials. With its 9" wide cutting path, you can use the Big Shot Plus with everything from large 9"-wide plastic-backed dies to the smallest thin metal dies. The Big Shot Plus Machine and accessories will also work with other brands' dies and embossing tools, including letter sheet sized embossing folders available from several brands, so this machine opens up a world of possibilities! In order to ensure compatibility, make sure to check machine and accessory requirements.
