

User Guide: addiExpress Knitting Machine

What is it?

The addiExpress lets you create easily and fast with 22 needles and an electronic row counter. Knit circular or plain, at lightning speed - just turn the winder and start the knitting fun. Even a beginner gets used to it quickly and discovers the fun in making various articles such as scarves, patchwork pullovers and vests, cuffs for arms, leggings, and so much more.

[addiExpress User Manual](#)

What can I do?

Create circular knitted tubes of about three inches in width. Create larger pieces by knitting them in flat panels first and then joining the pieces. Knit hats, socks, scarves, mittens, gloves, cozies, and more.

Search the Internet for free patterns. Join or follow online groups to find tutorials, project ideas, patterns, and more.

What does the Makerspace provide?

- addiExpress Knitting Machine
- Scissors

What do I need?

Thibodaux Branch Makerspace

- A pattern- [Check here](#) to locate free patterns and tutorials.
- Yarn (medium weight works best.)
- Anywhere from 30 minutes for a simple hat to several hours for a larger piece.
- The library currently **does not sell** materials to use with the knitting machine.
- There is **no cost** to use the machine.

What materials can I use?

The easiest yarn to use is a worsted wool, however other fibers and weight may work. Always knit a small swatch on the machine before starting your project so you will know how the yarn behaves.
